Good Afternoon:

I am very disappointed at what the Michigan Supreme Court is trying to do. I also want to voice my outrage at what we have been seeing in the news. How the Courts are overstepping there judication, and trying to make law.

I agree with Johnny L. Fouse and many others. The Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather intepret the law. Why is the Michigan Supreme Court even considering taking the rights of citizens to have a trial by jury in any case? It is not humane. My sister's husband is affected by absestos exposure and now he has to have oxygen 24 hours a day. He was not told that this stuff was danagerous. Now because of the companies bad judgement, many people beside my sister's husband is suffering.

These people have every "right" to suite and go to trial if "they chose" to, not the corporationsor the courts.
